CERTIFICATE OF SERVICE

RE: Case No. 2007-00363
Cellco Partnership dba Verizon Wireless

I, Beth O'Donnell, Executive Director of the Public Service Commission, hereby certify that the enclosed attested copy of the Commission's Order in the above case was served upon the addressee by U.S. Mail on November 8, 2007.

Executive Director

BOD/rs
Enclosure

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF CELLCO PARTNERSHIP)
D/B/A VERIZON WIRELESS FOR ISSUANCE OF A)
CERTIFICATE OF PUBLIC CONVENIENCE AND)
NECESSITY TO CONSTRUCT AN ADDITIONAL)
CELL FACILITY AT 2181 STEPSTONE ROAD, MT.)
STERLING, MONTGOMERY COUNTY, KENTUCKY)
(THE EWINGTON CELL FACILITY))

CASE NO.
2007-00363

O R D E R

On August 13, 2007, Cellco Partnership, a Delaware General Partnership, d/b/a Verizon Wireless ("Applicant") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 265 feet in height, with attached antenna, to be located at 2181 Stepstone Road, Mt. Sterling, Montgomery County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 5' 3.79" by West Longitude 83° 53' 46.15".

The Applicant has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to 807 KAR 5:063, the Applicant has notified the County Judge/Executive of the proposed construction. The Applicant has filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning

Commission ("KAZC") seeking approval for the construction and operation of the proposed facility. Both applications have been approved. However, a copy of the FAA determination has not yet been filed with the Commission.

The Applicant has filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited comments and informed the recipients of their right to request intervention. Gregory and Melissa Jones, Darren Jones, and Roger Jones sought and were granted full intervention in this matter. On October 15, 2007, the Commission received correspondence from all intervenors indicating their desire to withdraw their intervention. The Commission granted these requests by Order dated October 25, 2007.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicant has demonstrated a facility is necessary to provide adequate utility service and that, therefore, a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicant should notify the Commission if it does not use this antenna tower to provide service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by the Applicant.

IT IS THEREFORE ORDERED that:

1. The Applicant is granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 265 feet in height, with attached antenna, and is to be located at 2181 Stepstone Road, Mt. Sterling, Montgomery County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 5' 3.79" by West Longitude 83° 53' 46.15".

2. The Applicant shall file a copy of the final decision regarding the pending FAA application for the proposed construction within 30 days of the date of this Order.

3. The Applicant shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

4. The Applicant shall also notify the Commission in writing, within 20 days of completion, that it has finished construction of the tower and the date upon which said construction was complete.

Done at Frankfort, Kentucky, this 8th day of November, 2007.

By the Commission

ATTEST.
